The diagram illustrates a window frame assembly. It features a central rectangular frame with a horizontal top rail, a horizontal bottom rail, and two vertical side rails. The top and bottom rails are connected to the side rails at their ends. At the top corners, black corner brackets are visible, securing the top rail to the side rails. At the bottom corners, similar black corner brackets are shown, but they are not yet fully engaged with the bottom rail, indicating a step in the assembly process. The side rails are shown with a slight gap between them, suggesting they are being moved apart. The background is a solid orange color.

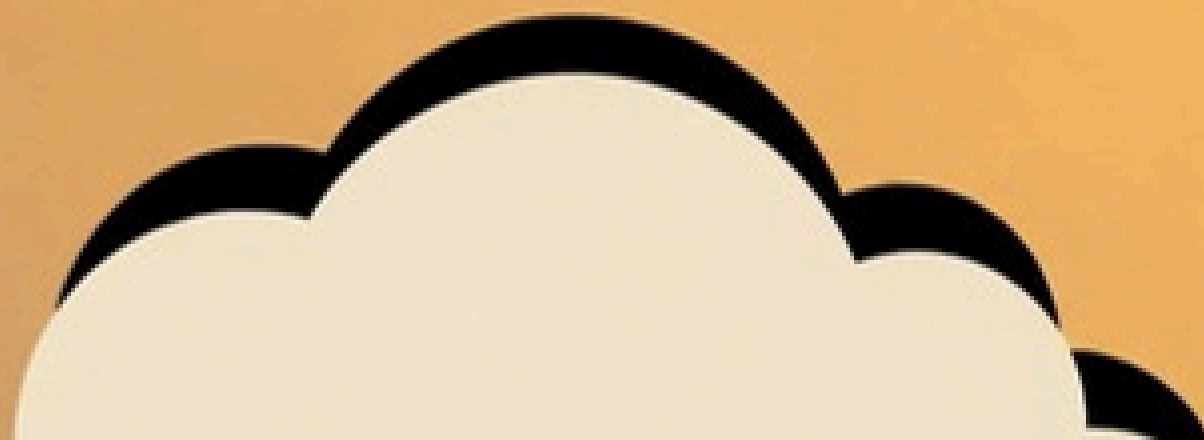

**Pieșele care nu au
colțuri negre se separă
în partea dreaptă și
partea stângă.**

Se verifică dacă firul de ata este deasupra roții.

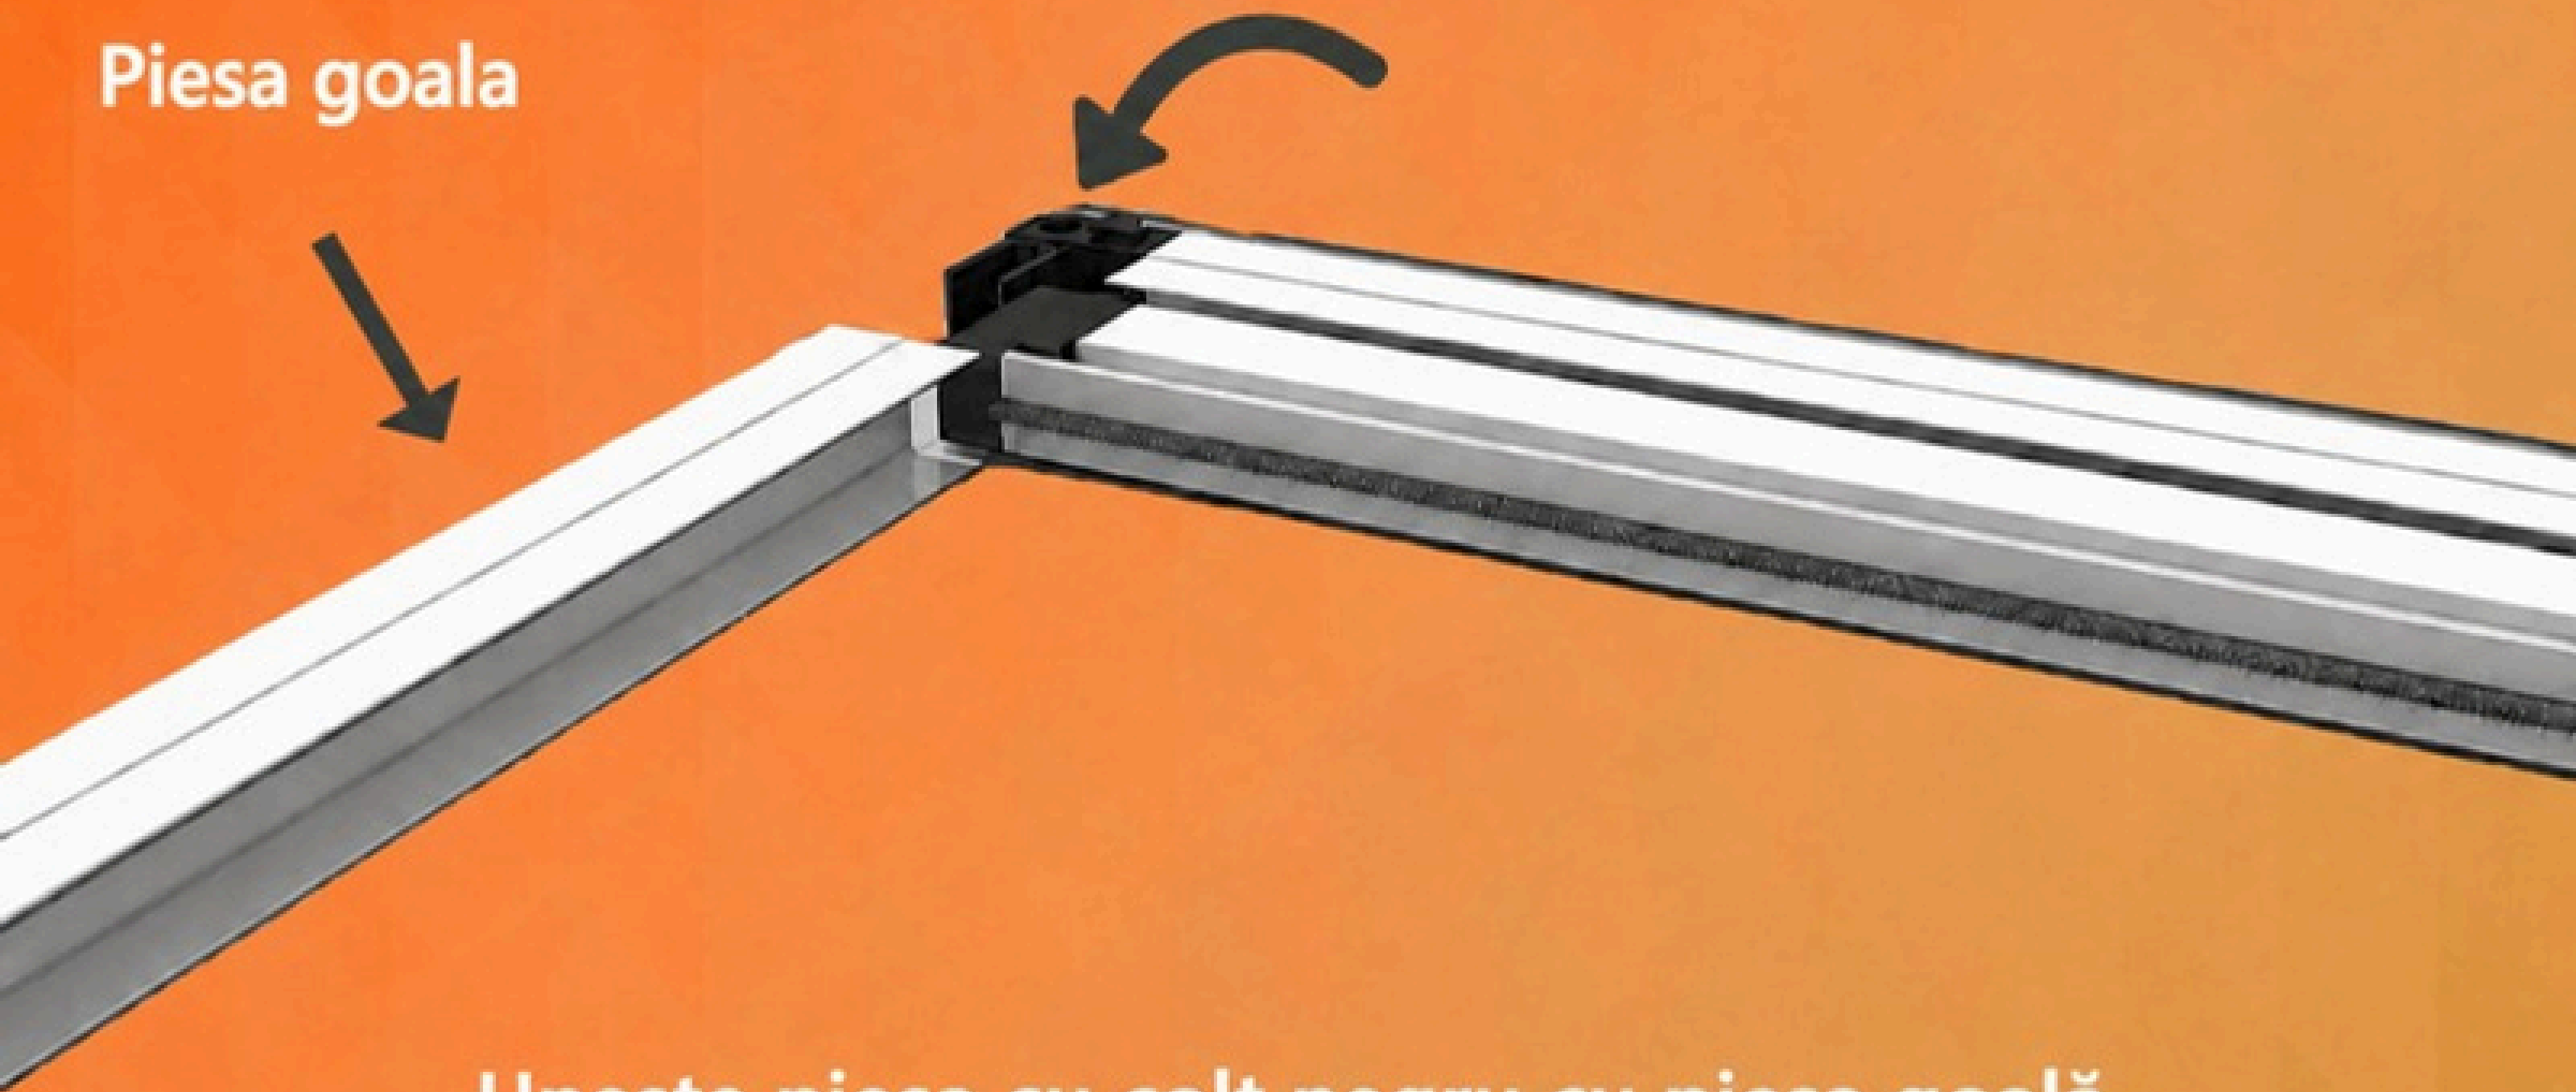

Uneste
Colturile

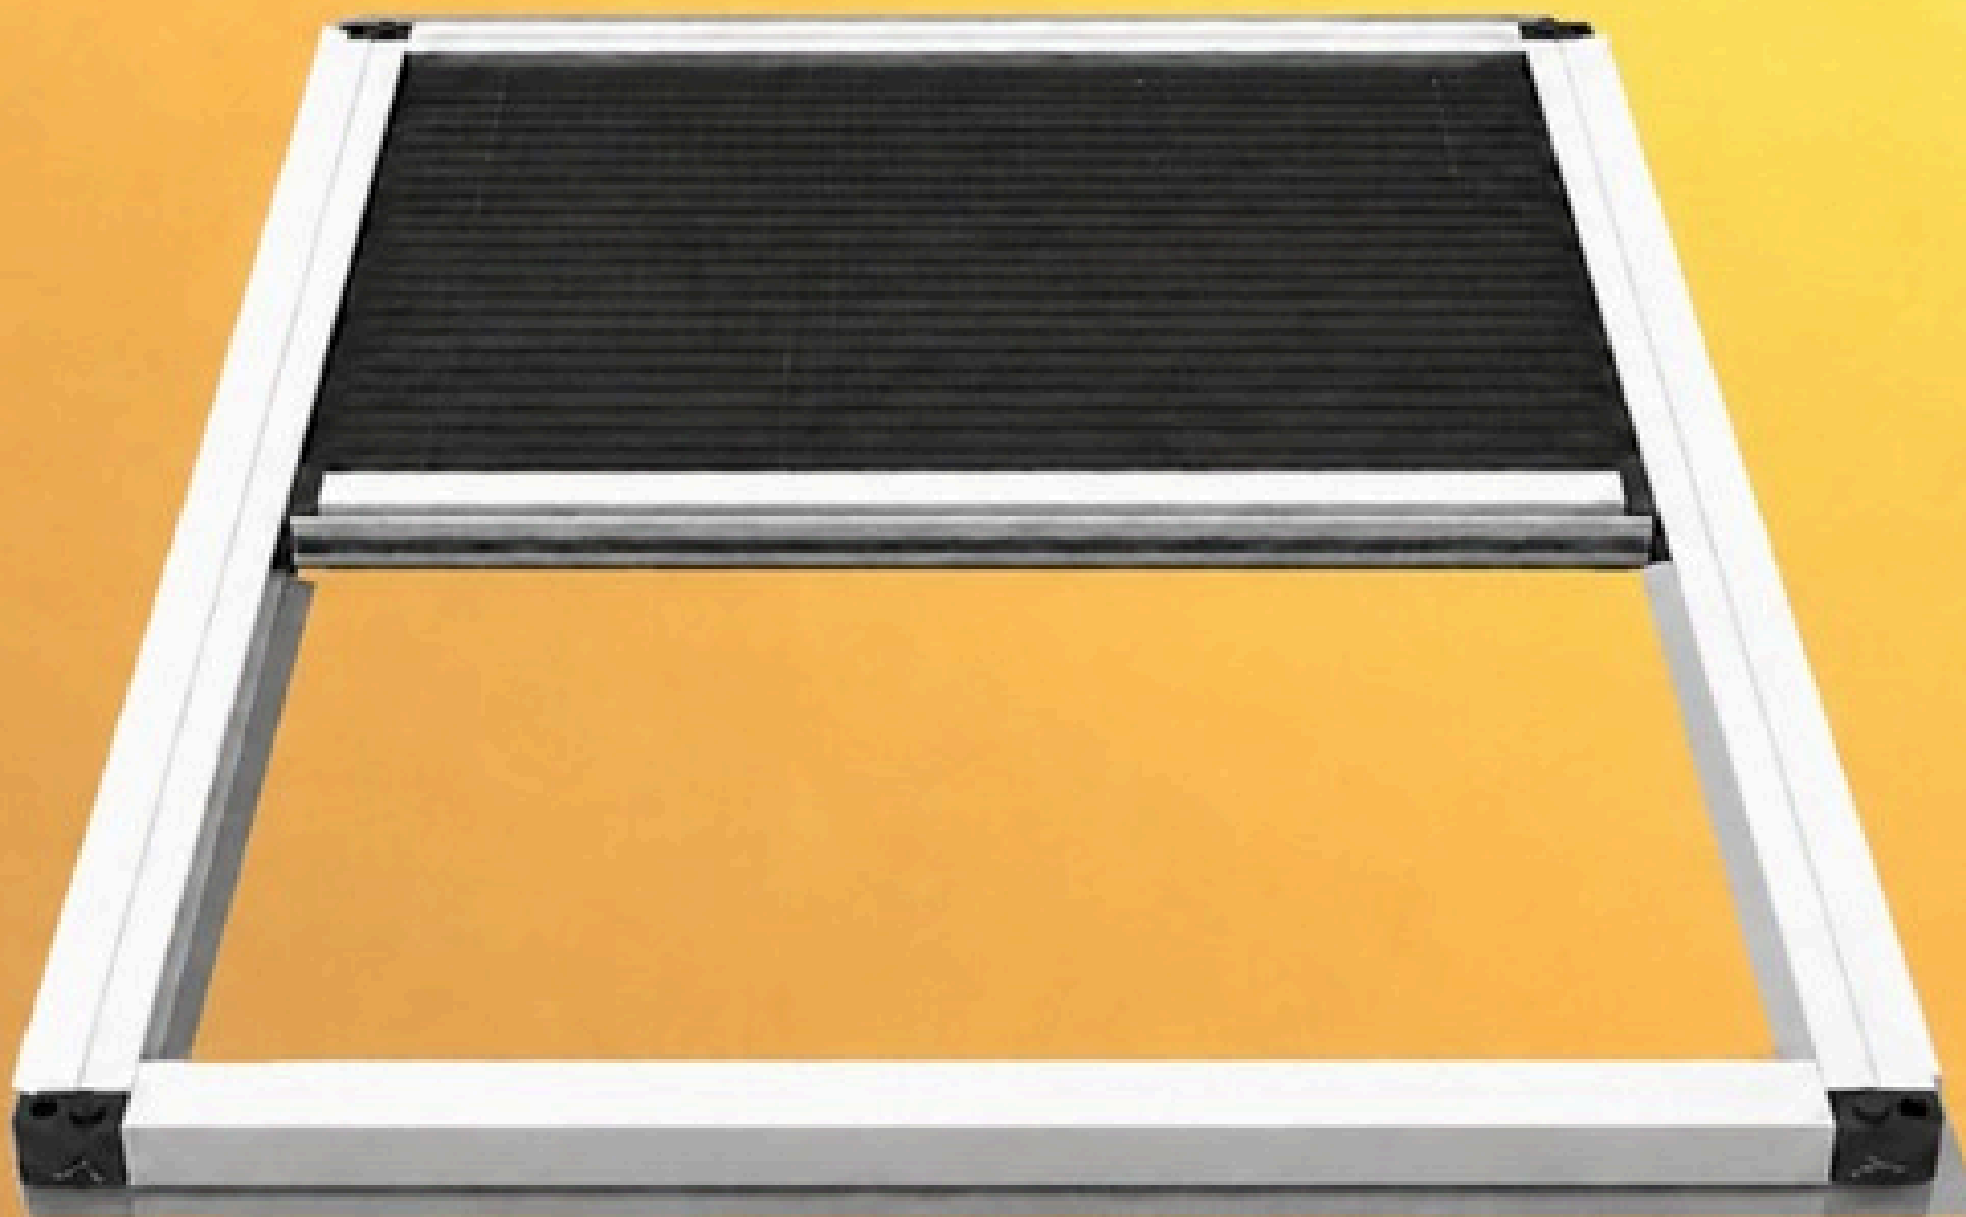

Piesa goala

Piesa cu colț negru

Unește piesa cu colț negru cu piesa goală.

**Pregătit pentru montarea
plasei plisate contra insectelor**

Operațiunea este finalizată cu 4 șuruburi.

Înșurubează,
finalizează.
